

A Level History Transition work

As part of your preparation for studying A Level History next year I would like you to complete the following tasks.

Complete a timeline of key events in Britain from 1900 to 1918.

You should cover social, political and economic events e.g. general elections, important reforms.

The second task is to do a brief biographical study of each of the following politicians

- David Lloyd-George
- Herbert Henry Asquith
- Ramsay MacDonald
- Winston Churchill

You should only refer to their work between 1900-51 and focus on such things as

- Their political party, beliefs/philosophy
- Positions held in govt
- Successes & failures
- Strengths and weaknesses

Work can be presented in any format that is clear and legible. Again it is essential that you make use of text books and that you provide a bibliography (list of books) that you have used.

If you have difficulty in accessing text books please speak to Mr Crowe directly
